DVD ■ NEW THE HISTORY OF THE ENSLAVEMENT OF THE

BRITISH ISLES - A very detailed and passionate presentation by the incredible Abdun Nur. Before 1066 what is now known as the land of the Angles was known under its true name, Albion, and the Albic peoples were free. The immigrants from Germany, the Angles and the Saxons, through their Roman Catholic masters, and its iniquitous subjugated European supporters, enslaved the nation, a slavery that has not abated in a thousand years. Sovereign thinking is the basis of the Roman Catholic strategy in maintaining a subjugated mind. Through understanding the true history and heritage we all share, a greater appreciation of how we arrived in the situation of a prison planet can be considered. Amazing revelations. A must see. £5

DVD ■ NEW IS OURS THE AGE OF AQUARIUS OR ANTICHRIST:

MAKING SENSE OF 666 - A plethora of rare information from top class international speaker Terry Boardman. Where and when on earth are we going? We all know where we are in Space (geography), but what about in Time (biography, history)? If we get that wrong, we mess up - personally, nationally, globally. The old man pretending to be a teenager, the teenager unable to leave his childhood, the former imperial nation unable to abandon its imperial habits. There are the eco-doom-mongers who say: "it's too late, we're heading for a mass culling of billions of human beings." There are the New Age mystics who say: "a Golden Age is just around the corner. Have faith! Aliens or the Ascended Masters will save us." What we do in the present is determined by our understanding of our past and also by what we imagine the future will bring. The conventional concept of scientific evolution just confuses us with its vast astronomical numbers and reduces our lives and history to insignificance and meaninglessness, while religious explanations, whether traditional or New Age, present a bewildering miasma of interpretations: 'the End Times' (when are they actually?), 666 (what is it?), the Age of Aquarius (when does it actually begin?) or else, as in some eastern religions, no really helpful understanding of Time at all. Control over calendars and visions of the future has long been a key feature of human development but also a way in which elites have sought to control society. Is this in fact the Age of Aquarius or is that still far off? The year 1998 was the third repetition of 666. Are we still in the shadow of that repetition? And what does 666 mean anyway? What IS the Antichrist? Myth or reality? In this talk Terry will go right into the meaning of Aquarius, the Antichrist and the number 666, to throw light on the deep structure of our time. £5

DVD ■ NEW ALCHEMY: AND THE BIRTH OF MODERN SCIENCE

Presented by the remarkable Nick Marchmont (an illustrated introduction to some of history's edgeworkers). Banned by emperors, paid by kings, pursued by the inquisition. From beyond the dawn of history alchemists have explored the edges of the unknown. With origins in Egypt and Babylon, alchemy is the story of humankind's earliest quest to understand and bring into balance the inner and outer world. Before their discovery by modern science, alchemical initiates manifested microscopes, submarines, gunpowder, alcohol, porcelain and much, much more. Alchemists were the mid-wives of ideas and methods that were to become the science of our modern age. 2000 years ago, wherever there was an edge there was an alchemist. This is their story. This guy really know his stuff. £5

DVD ■ NEW INFINITE FREE ENERGY: BUT NOT FOR THE MASSES

- A very informative presentation by the exceptional Andrew Johnson. In this presentation, we will look at the evidence for the cover up of "free energy". Looking around us, we can see fantastic advances in many areas of technology - yet in ground transportation, we are still "stuck" with decades old internal combustion engine technology which has not progressed much since it was first introduced. Is there an alternative to burning fossil fuels? Radiant Energy, Cold Fusion, Magnetic Motors - can we exploit "vacuum energy" and "get more out than we put in"? A look at the evidence tells us that we can, but it also tells us why this is not possible under the current regime. A detailed expose of one of the biggest cover ups ever. £5

DVD ■ NEW THE REPTILIAN AGENDA

- An exceptional presentation by the extraordinary Frank Willis. Who or what are the Reptilians? What is the connection with mankind? Are they manipulating us and why? What do they want from us? Where are they from? There is much evidence to indicate that they have always been with us. Frank has researched this subject for 28 years after an exceptional experience in Mozambique and wanted to know the answers. What he discovered

was hard for him to believe until intriguingly about 8 years ago. One of the tools is not to fear them. This talk is designed to really make you think about what is still a very controversial subject. Frank presents his evidence and you can make up your own mind. Not to be missed, that's for sure. £5

DVD ■ LIFE IS NOT WHAT IT SEEMS - a stunning all new presentation by the remarkable John Harris. John's back, full of life and raring to go. You are invited to spend an evening listening to his perspective on life. Be warned this man will mess with your mind and possibly turn your world upside down. Please note: this talk comes with no government health warning. The New Horizons Team first saw John at the 2009 British Constitution Group's Lawful Rebellion conference in Stoke where John received a well deserved standing ovation for his awesome presentation exposing just how badly our lives are manipulated by the hidden hand behind the government. Offering key insights into how our legal system is founded on commerce and the deliberate extraction of money from society. John has also proved to us that most public bodies are in fact limited companies with all the sinister ramifications that entails. This 2½ hour presentation is all new and is a roller coaster of an evening. Very highly recommended. £5

DVD ■ SACRED GEOMETRY: AN ILLUSTRATED INTRODUCTION

TO THE PRINCIPLES AND GROWTH OF FORM - An incredible detailed interview with the exceptional Nick Marchmont. From immune systems to galaxies the cosmos is drawn and bound together by geometry. This Grayling Barraclough interview uses models, holograms, crystals, illusions and colour to investigate and explain the basic shapes and dimensions that form our world. A roller-coaster ride from nothing to everything. No previous experience necessary. Bio: Nick is an independent researcher developing a series of talks and workshops that are collectively called Healing History. These talks aim to investigate, celebrate and propagate the genius of our ancestors, and to encourage a confident and resilient approach to our future. £5

DVD ■ OUTSIDE THE BOX, IS THAT YOUR DESTINY? - The multi talented Mark W Foster is a visionary speaker and empowerment coach. he presents an intriguing look into a world very different from the five sensory illusion we all currently call reality. More and more people are awakening to the fact that our current reality is being controlled and manipulated by an invisible minority for their own ends. What are our options in the years to come? An end to the old? A new world or a new reality? And is it happening now? Not to be missed. £5

DVD ■ A WORLD IN CHAOS TO A COMMUNITY IN PEACE: THE

ATTAINABLE SOLUTIONS - An informative and passionate Grayling Barraclough interview with the amazing Abdun Nur. Many people are exposing the corporations, secret societies and gov'ts that control and exploit all people, a system turning them into at best economic slaves, but often into physical slaves or starving outcasts; a parasitical pyramid of subjugation and restriction. Yet, these systems are perpetuated and empowered through each individual, and can be removed without war, violence or hardship, independently through that individual. If you would like to consider alternative models, models that functioned for thousands of years without manipulation, inflation, legislation or exploitations of any sort, listen to a presentation of these simple models and how they can be re-established and applied to your life, your community and your environment. £5

DVD ■ HEALTHY SCEPTICISM - Increasingly we seem to be told to consider our health - "don't eat junk food, exercise regularly" etc. - we are constantly bombarded with statistics regarding various forms cancer and conditions such as heart disease. In the UK, since the creation of the NHS in 1948, a culture of looking to Doctor's and surgeons to diagnose and successfully treat our illnesses seems to have been fostered. But what aren't we being told? What safe, cheap and effective treatments have been suppressed? Why have they been suppressed? Let's look at the evidence. A very detailed and well evidenced presentation by the remarkable Andrew Johnson. £5

DVD ■ WHERE DID MANKIND COME FROM

- The remarkable Frank Willis. There is a battle raging between the Christian right and scientists as to the origins of man. Some Christians take the Bible story of Genesis literally. They believe God made Adam and Eve six thousand years ago, and that all the animals and plants of the world began at that time. This theory is called creationism. So when presented with evidence that fossils have been laid down in sediment that is known to be millions of years old, the creationists say that it's a trick to test their faith. The scientists believe in the theory of evolution and Darwin's survival of the

fittest. None of the official stories make sense or stand up to close scrutiny. Everything that we've been told is wrong. Frank will be offering his perspectives on what really happened with some remarkable and thought provoking revelations. £5

DVD ■ 2012: TRUTH OR CON? - Top class international speaker Terry Boardman. The idea that something awesome is going to happen in 2012 in connection with the Mayan calendar emerged in the late 1980s. Over the last 10 years, it has been increasingly talked up, some would say 'hyped' up. What is behind the Mayanists' millennial message which stole onto the scene as the USSR broke down and globalisation 'warmed up'? Is it all an illusion, a great con or disappointment we are being set up for a hidden agenda? Or is there something genuine and positive about it all, something that really gives ground for new hope? A real New Age - or the end of the world as we have known it? Terry illuminates this conundrum from a fresh & original perspective. £5

DVD ■ USURY AND CONTROL: THE BEGINNING OF THE LIE - The deception of democracy, in reality a constrictive system, enslaving the population economically to the bankers fraud of creating money out of thin air and then charging high rates of interest on it. As with all systems founded on deception, murder, corruption and greed, from the moment the seeds of their power germinated, the death of the structure was established, the financial system we suffer today is in the final stages of its self destruction. An informative and passionate talk by the outstanding Navid Masud. £5

DVD ■ THE ILLUSIONARY WAR ON TERROR - A factual presentation by Nick Kollerstrom PhD, Science Historian and Author. Our civilisation seems to need endless war, and to achieve this it has to construct "the phantom menace". It fabricates terror plots, to keep us all afraid. Why is this happening? What can we do about it? Tonight we look at 'deep politics' and at the difference between what is real and what is not. In the past our politicians offered us dreams of a better world that never materialised. Now they promise to protect us from nightmares. The most frightening of these is the threat of an international terror network. But just as the dreams were not true, neither are these nightmares. Bio: Nick is the author of "Terror On The Tube: July 7th The Unanswered Questions" and together with James Stewart (of New Horizons) Investigated the train times from Luton to Kings Cross on the morning of July 7th, and proved that the 7.40 AM train was cancelled which totally destroyed the government's story as the four supposed bombers could not possibly have been in London at the times specified by the UK government to commit the crime. Information which went all round the world. £5

DVD ■ CROP CIRCLES: A MYSTERY IN THE FIELDS - A detailed look at the research of leading crop circle investigators Colin Andrews, Freddy Silva, Ed and Chris Sherwood and others, as we endeavour to get a good understanding of the crop circle phenomenon and look at the evidence which suggests that they are made by a number of different "agencies". What was the message in the "Alien Head" formation? Did one formation appear to be a response to a message sent out by the Arecibo Radio Telescope in 1974? What can we conclude about the phenomenon? What is the connection between crop circles and the events of 9/11? As ever Andrew Johnson makes sense of what is still a huge mystery to a great many people. A clear evidence based investigation of the crop circle phenomenon. £5

DVD ■ THE SCOTTISH ESTABLISHMENTS COVER UP OF THE HOLLIE GREIG ABUSE SCANDAL - A detailed and very emotional presentation by Robert Green. Reporter Robert Green was arrested in Aberdeen for the crime of seeking justice and an investigation into the case of Down's Syndrome girl, Hollie Greig, who says she was serially-raped over a decade by an establishment paedophile ring operating in Scotland. Robert is now out on bail and with a gagging order against him in an effort to stop him naming the people that Hollie says were involved. In this talk Robert speaks out against the injustices heaped upon Hollie and her mum Anne at the hands of the Scottish establishment and the complicity of the mainstream media and especially the BBC in conspiring to cover up these atrocious crimes. This information has gone all over the world and if the details of this paedophile ring ever reaches the mainstream media in the UK then it could bring down the government and the establishment. The very brave Robert received a standing ovation at the end of this excellent presentation. £5

DVD ■ CROP CIRCLES, 9/11 AND THE TRUTH COVER UP - Andrew Johnson interviewed by Grayling Barraclough, checking the evidence

and making sense of the crop circle phenomenon. Starting with the earliest recorded crop circles to the latest evidence. In the UK farmers recall simple circles appearing on their land for generations. The British media first reported on the circles in the early 1980s. By 1990 crop circles had exploded into the public mind as the new phenomenon changed from simple circular patterns into huge and complex, geometric formations. The crop circles are a world-wide phenomenon and each year new reports come from an ever increasing number of countries. £5

DVD ■ THE GREEN AGENDA AND POPULATION REDUCTION Billions of dollars are being spent to convince humanity that the presence of the Human Race on Earth is the real threat to the species. The ultimate goal is to replace Six Billion Humans with 500 Million Super-Humans, a reduction of 90%. Ian demonstrates that the 'financial elite' do not have our best interests at heart and discusses the vaccination programme associated with the Swine Flu scam, tens, perhaps hundreds of thousands more people unemployed, many thousands having their homes re-possessed, life-savings & pensions have been decimated, not to mention the escalation of illegal wars and the continuing genocide of the Palestinian people. The talk will introduce aspects of the esoteric dimension of the 21st century including: humanity's 'crossing of the threshold' in 1899 in relation to the millennium and 2012; humanity's global 'coming of age' in the 21st century; the connection between the New World Order and the incarnation of 'Ahriman'; Europe between America and China and the struggle in Europe between the streams of Freemasonry, Jesuitism and the Rose Cross; the New World Order and 'the Age of Michael'; the impulse of 666 and 1998; the Etheric Christ Event. £5
