

NATURAL ENERGY FOR POWER AND HEALING

Truthseekers (NW) first day workshop. Sunday 27th. January 2008

Venue: Sands Arts Centre (opposite Post Office) Grange-Over-Sands

We have 8 local presenters who live in the North West and who are exceptionally talented. The presentations are going to be multi-media with actual inventions such as the fuel cell available for the audience to see. Three people who attended previous Truthseekers meetings have already had the fuel cell fitted to their cars and they are very pleased with the results. The cell runs on water and can save up to 50% of fuel costs!

PROGRAMME AND TIMES OF PRESENTATIONS
