"It's An Illusion"

A truly stunning fact based presentation by John Harris

Freeman or "SLAVE". John is presenting in clear and simple terms his understanding of Political and Regal history, Common Law, Statute Law, Contracting and much more. This is an updated talk based on the presentation he did at the British Constitution Group's "Lawful Rebellion Conference" at Stoke earlier this year where John received a well deserved standing ovation for his awesome presentation exposing just how badly our lives are manipulated by the hidden hand. Offering key insights into how our legal system is founded on "commerce" and the deliberate extraction of money from society. Understanding the concepts presented are essential for anyone to grasp how our "out of control" judicial/legal/banking systems are designed to operate. Addressing many key topics including Civil Law V's Admiralty/ Maritime Law, spiritual being V's human beings, giving birth as a commercial maritime concept, free V's slave, judicial slush funds & much more. Absolutely stunning stuff. Very highly recommended.

"Don't Talk About The Weather" - BIG SCREEN FILM NIGHT

Ever wondered why the sky is overcast nearly every day, why people are coughing and getting sick, and why everything on the news is suddenly a crisis? This film chronicles a grassroots investigation into chemtrails, analysing the different and contradictory official explanations, as well as uncovering official documents that prove chemtrails are not only real, but are in fact a WEAPONS SYSTEM. It also examines media involvement, including subliminals and counter intelligence, and links the subject to an all-encompassing political agenda. There should be something new here for everyone, as each section takes a different perspective. A remarkable new film that exposes chemtrails and how they fit into the global NWO agenda. A very well evidenced new film that will leave you shell shocked at the factual information exposed.

"The Future Of Food: The Disturbing Truth About Genetically Modified Food"

BIG SCREEN FILM NIGHT

There is a silent and deadly revolution happening in the farm fields and on the dinner tables, a revolution that is transforming the very nature of the food we eat. This documentary offers an in depth investigation into the disturbing truth behind the unlabeled, patented, genetically engineered foods that have quietly filled grocery store shelves for the past decade. A very detailed examination of the dangerous health implications, government policies and push towards globalization which are all part of the reason why many people are alarmed by the introduction of genetically altered crops into our food supply. It also closely examines the complex web of market and political forces that are deliberately changing what we eat as huge multinational corporations seek to control the world's food system. The film also explores alternatives to large-scale industrial agriculture, placing organic and sustainable agriculture as real solutions to the farm crisis today. The level of precise detail is absolutely astounding and will certainly shock you and make you think twice about what food you will buy from now on. Truly a must see documentary.

In this presentation, we ask has working antigravity technology been developed? Is it already in use? We take a look at the evidence from the last 100 years (arguably longer) and consider the reasons for what looks like a comprehensive cover up. In the process we will cover the astonishing experiments of Thomas Townsend Brown and John Hutchison which will both amaze and astound you, the incredible Coral Castle and the secret Aurora Aircraft development Programme. Andrew's presentations are invariably well researched, very detailed, entertaining and very informative.

A fragrant hands on presentation by Jenny Pearson Snape

Jenny presents seven new energy sprays related to the chakras. These sprays are very special and quite unique. Starting in Dec. 2006, Jenny spent seven months preparing herself for the journey to collect the energy from each of the seven sacred sites in Scotland, France and Spain. She then travelled to each one of the sites. Her book called, *Awakening the Chakras Through A Journey Of Self Discovery*, records both the inner journey and the physical one. Come and listen to Jenny talking about her experiences. Find out more about the energy sprays and try them for yourself. Sure to be an enchanting feel good evening.
