"The World of Synchronicity (Meaningful Coincidences)"

A welcome return by meticulous and vibrant Brian Halliwell

Are all these "funny" coincidences that happen to all of us reflecting an underlying reality that most of us are unaware of? i.e. a reality that acts like a "connecting principle" linking "mind and matter"? Are these coincidences messages from the "Great Unmanifest"? i.e. the universe swinging into action to provide the answer to "Humanities" inner need? The talk will explore these issues. Brian's talks are always thoroughly researched and very well presented.

"Mars, Pyramids and Changes in the Solar System"

Another mind expanding presentation by the vibrant Andrew Johnson

Some people say there is life on Mars - some of them are scientists who have worked for NASA. This presentation looks at some of the NASA photos and data which suggest there may be life on Mars. In most cases, NASA will not discuss what is shown on some of these photos. Analysis and discussion is left to independent researchers like Richard Hoagland and David Wilcock. They suggest there are links between structures on Mars and the Pyramids in Egypt. Is this true, or is it just a fantasy? Come and look at the evidence for yourself and make your own mind up.

"The Secret Law Of Attraction" An uplifting presentation by Grace Brown

It is essential to know that the Law of Attraction already exists in your life and is always at work whether you are aware of it or not, whether you like it or not, or whether you believe it or not, it is always in a state of creation. If you like what you are attracting, please go ahead and enjoy it, so by enjoying it you will get more of it. On the other hand if you don't like what you are getting, it is therefore time to tap into the Law of Attraction as it is always at work; it never fails. Understand it, know exactly how to use it, and start applying its principles to manifest everything you've always dreamed of. The Law of Attraction is a universal force that attracts to you whatever you focus your very attention on most of the time. This magnetic power allows you to manifest your thoughts and emotions into reality. It has been existent since the beginning of creation. The greatest people who have ever lived practiced this universal law. The most successful people in the world today are practicing it today!

Making A Killing: The Untold Story Of Psychotropic (Mind Altering) Drugs
BIG SCREEN FILM NIGHT

A riveting tale of total deception without a single cure. Fake medical behavioural conditions or so called psychiatric problems. If you're shy (SAD "Social Anxiety Disorder"), tired, happy, depressed or full of life then they've now created a supposed disease for each of those normal human moods or emotions where, by coincidence, they have also invented the appropriate miracle cures - psychotropic (mind altering) drugs which almost 100% of doctors will immediately prescribe. People then go through life in an altered mental state suffering adverse side effects, increased hospitalisation and premature death. The cost to society of this is staggering. You'll never take another pharmaceutical pill or tablet in your life after seeing this film. Overwhelming substantiated facts & truly essential information that is impossible to ignore.

"The Fylde Coast Poisoners"

A factual scientific presentation by Lawrence Wright on tap water in the U.K.
Members of the audience are invited to bring with them a pint of their tap water in a bottle and see how good or bad their water is.

Just what is in the tap water we drink and wash with each day. See before your very eyes your nice clear tap water turn brown or green, revealing the hidden poisons we ingest on a daily basis. The British Government has given a £42 million propaganda budget to Strategic Health Authorities so they can present lies about fluoride to the public before they go ahead and do it anyway. There will be no referendums. For members of the audience you should know that Blackpool PCT has already decided to support the fluoridation of your water supply. Lawrence will also be talking about suppressed alternative health remedies that really work and what you can do to protect yourself from the barrage of poisons many of us are unknowingly taking into our bodies each day and storing up problems for the future.

"Sick Of Debt" A remarkable eye opening presentation by Ralston Ferguson
Ralston Ferguson of The Claims Warehouse www.theclaimswarehouse.org comes highly recommended. Something "big" happened recently in the world of financial mis-selling when judgements in certain court cases set a precedent for loans, credit cards and car finance debts to be completely written off entirely legally. Ralston seized the opportunity to become a pioneer in this "new" claims industry. Get the hard facts in this power point presentation and discover that if you have loans, credit cards, car finance that were taken out before April 2007 then you may be able to write-off the debt completely! The Claims Warehouse have access to solicitors who will audit your agreements to find out if they are flawed. Many, many agreements have fundamental flaws and are therefore deemed unenforceable! Did you know that millions of mortgages may also have been mis-sold? Why not get yours checked out as you may be entitled to thousands of pounds. This information is real, it is happening and is absolutely dynamite.

"Zeitgeist Addendum (The Spirit Of The Age)" BIG SCREEN FILM NIGHT
A striking new film that shows how society's establishments, namely religious, political, and economic, are inherently corrupt and are used as mechanisms of control, particularly raising the compelling assertion, that the monetary system is the inherent problem. Focusing primarily on the fundamental flaws of our world economic and monetary systems, its biting social commentary is certainly topical considering the current credit crisis. And whereas the first Zeitgeist stopped short of offering any solutions to the social ills it exposed, Zeitgeist Addendum provides an equal amount of hope with the doom and gloom. A truly exceptional film.
