"The Link Between Diet And Cancer"

A well researched and very informative presentation by Neil Williams

Resveratrol is a natural compound found in food such as red grapes and has been attributed to the 'French Paradox'. Then in 2001, a cancer specialist at De Montfort University, Leicestershire made an amazing discovery about how resveratrol is used by the body to fight cancer. In this talk you will hear about recent discoveries in the field of cancer, how food production has dramatically reduced important compounds in our food and how we can find a solution to combat disease. A well evidenced presentation containing truly essential information.

"A World In Chaos To A Community At Peace: The Attainable Solutions"

An informative and passionate talk by the amazing Abdun Nur

Many people are exposing the corporations, secret societies and governments that control and exploit all people, a system turning them into at best economic slaves, but often into physical slaves or starving outcasts; a parasitical pyramid of subjugation and restriction. Yet, these systems are perpetuated and empowered through each individual, and can be removed without war, violence or hardship, independently through that individual. If you would like to consider alternative models, models that functioned for thousands of years without manipulation, inflation, legislation or exploitations of any sort, listen to a presentation of these simple models and how they can be re-established and applied to your life, your community and your environment. Comes highly recommended by Navid Masud (Usury And Control). Check out his website at

"Reclaim Your Spiritual Power: Becoming Fearless And Free"

A welcome visit by international presenters Jack and Anne Stewart

Let international healers and spiritual teachers Jack and Anne Stewart take you on a journey of becoming fearless and free through the sharing of spiritual truths, accessing 'divine states', letting go of painful events and limiting beliefs and taking control of your life. Learn new meditations to awaken the God within you, find out how to access powerful states which facilitate healing and intuitive 'reading' of the body; lose your fear of death. And if all that isn't enough, how about learning [at last] to love and accept yourself, through the tangible fact we are complete but unfinished... This is a 'hands on' session providing life-changing tools enabling you to break out of the straightjacket of fear those 'running' the planet have created for us.

■ **MONDAY 26th JULY 2010** - Open 7.30 PM for FREE refreshments - 8.00 PM start

"The Supernatural And Children"

A riveting presentation by the enchanting Peter Watson

In this talk, Peter will give some examples from his unpublished private collection, of the experiences of children with the supernatural. He will be discussing and giving true examples of when children talk about ghosts and imaginary friends. We will consider whether or not children really can engage with the supernatural world and if some of them have been here before... Peter is one of the UK's leading experts on folklore, witchcraft, magical healing and the supernatural and has a collection of stories, sent to him from all over the UK, which have been recounted to him spontaneously as true experiences. Peter has a delightful way of telling his exclusive stories.

"Outside The Box, Is That Your Destiny?"

The multi talented Mark W Foster

Mark is a visionary speaker and empowerment coach. Tonight he presents an intriguing look into a world very different from the five sensory illusion we all currently call reality. More and more people are awakening to the fact that our current reality is being controlled and manipulated by an invisible minority for their own ends. What are our options in the years to come? An end to the old? A new world or a new reality? And is it happening now? A not to be missed night. Mark's excellent web site can be found at www.markwofoster.com

"Sacred Geometry: An Illustrated Introduction To The Principles And Growth Of Form"

An incredible detailed presentation by the exceptional Nick Marchmant

From immune systems to galaxies the cosmos is drawn and bound together by geometry. This presentation uses models, holograms, crystals, illusions and colour to investigate and explain the basic shapes and dimensions that form our world. A roller-coaster ride from nothing to everything. No previous experience necessary.

Bio: Nick is an independent researcher developing a series of talks and workshops that are collectively called Healing History. These talks aim to investigate, celebrate and propagate the genius of our ancestors, and to encourage a confident and resilient approach to our future. Nick's web site is currently being written so you can contact him at: - nickm@dr-rock.biz

"History Cannot Be Permanently Falsified"

A welcome return of one of the UK's foremost alternative researchers [Ian R Crane](#)

Despite increasing public awareness of anomalies in the official explanations of 9/11 and 7/7, these events are still the drivers for an aggressive US/UK agenda. The supposedly catastrophic pandemics of SARS, Bird Flu and Swine Flu have been exposed as massive scams. Trillions have been spent marketing 'Climate Change' as the primary threat to humanity - deceptions exposed as the route to global governance and a 'Cap and Trade' economy. As we enter a new decade we can take heart ... history cannot be permanently falsified ... The remarkable Ian R Crane is an ex-oilfield executive, who now lectures and writes on the geo-political webs that are being spun, with particular focus on US Hegemony and the New World Order agenda for control of global resources. Ian's presentations are always very factual and very informative.

"The English Constitution And Treason At The Highest Levels Of Government"

A Passionate And Powerful Presentation By The Amazing [Albert Burgess](#)

The New Horizons Team first saw Albert at the first Stoke "Lawful Rebellion" Conference where his powerful presentation stunned the audience. Albert is a retired Special Constable and became interested in treason at the highest levels of government when he was given papers released under the thirty year rule which clearly evidenced the treason of the Heath government. Since then Albert has been studying the history of the constitution and can tell us why our current membership of the EU is illegal. He is extremely well read in English history and is an expert in the English Constitution. Albert will give clear evidence that the Government, helped by all political parties, the media and the Foreign & Commonwealth Office have committed Treason. Astonishing.

"Encounters With UFOs & The UFO Secret Police Maintaining The Silence"

An extraordinary evening with the enigmatic [Tony Topping](#)

Tony has had a life time of dealing with UFOs and the paranormal. What we are told about the UFO subject and what is written about UFOs is very different from the real life situation Tony has experienced. During the course of these experiences he has built a solid understanding of real life UFO interaction. Tony Topping is a man who is a lone wolf in the UFO research community, and yet his story is one of UFO interaction, covert harassment and mind control technology. At work in the UK, and internationally, a unelected secret police maintaining the silence is at work and it's objective is to keep the UFO silence in place. He is a witness to a very deep cover up over the existence of UFOs. Mind expanding. Tony's web site is at www.etlife.co.uk

"Mind Control: Psychological Operations and Predictive Programming"

A fascinating presentation by [Anthony Murray](#)

This talk will provide an introduction to the generally ignored programmes of Psychological Operations and Predictive Programming used by governments, militaries and intelligence groups in conjunction with the media and the education systems on populations at large. Social engineering is a standard technique of creating, moulding and guiding views, perceptions and the identities of a target population to fit to a required social, economic or political agenda. Advancing understandings in psychology and sociology have facilitated more efficient avenues of manipulation of the perceptions of individuals and populations by interested parties. Terms such as "perception management" and "consent engineering" highlight the mentality of governments, militaries and intelligences groups towards freethinking among populations.
