"The Land Was Ours In The First Place"

A Vibrant and amazing presentation by Tony Gosling

Tony is a journalist and researcher coming all the way from Bristol. From the Roman invasion through the Normans to the present day the land under our feet, an acre for every man, woman and child in Britain, has been privatised. But this land is ours by birthright and the so called credit crunch may mean we have to take back that land or face starvation. A very detailed history of land ownership, land grabs and the great British Mortgage Scam. Essential information that you will not hear anywhere else.

"Skylines and Cloudbusters: Weather Modification, Chemtrails, HAARP and Orgone Energy"

A mind expanding presentation by Andrew Johnson formerly of Scholars for 9/11 Truth

In recent years, the issues of supposed "Climate Change" and "Global Warming" have been thrust upon us from all directions. Because the weather is so important to us all, we should look carefully at the skies - and in the history books. The experiments, data and technology we can learn about are surprising - and they should cause us to ask - is the weather being manipulated? What is the real cause of Climate Change? Let's avail ourselves of some facts. A well evidenced presentation.

"London 7/7 - Finding The Truth - What Really Happened"

A very factual presentation by Nick Kollerstrom PhD, Science Historian and Author

"In an age when all the grand ideas have lost credibility, fear of a phantom enemy is all that politicians have left to maintain their power." The government has continually rejected calls for an independent public enquiry into the "London 7/7 Bombings". Blair said it would be a "Ludicrous Diversion". Why? What have they got to hide? Nick, all the way from London, presents a very well evidenced examination of the many anomalies surrounding 7/7 which cannot stand up to close scrutiny. Nick has been involved in discovering the actual train times from Luton to King's cross on the morning of July 7th - the 7.40 AM Train was cancelled - which had a key role in undermining the official government story. He has a forthcoming book on the subject, "Terror on the Tube: July 7th the Unanswered Questions". It will be the sole publication on the subject to advocate the hypothesis of Islamic innocence. Come along and see the evidence that has been ignored by the mainstream media. A real eye opener.

"The Subversive Attack On UK Society - an Update on Common Purpose"
A challenging and thought provoking presentation By Brian Gerrish

Since Brian was last here on the 7th April 2008 there is now a lot more to report on the machinations of the pro EU political "Charity" Common Purpose. Brian Gerrish is a former Royal Navy Officer who took early retirement as a Lieutenant Commander in 1993. As an anti-submarine warfare specialist, he spent many years detecting and tracking Soviet nuclear submarines in the Norwegian Sea, North Atlantic and Eastern Seaboard of the USA. His work included the collection, analysis and dissemination of high level intelligence material, particularly that relating to Soviet naval units and other forces. Shortly after leaving the Service, and following intimidation and threats to himself, family and colleagues, he began to identify politically subversive elements at work in UK society. Assisted by ex-servicemen, ex-policemen and others, he has now spent over 8 years investigating the pro-EU political 'charity' Common Purpose, as well as other subversive political quangos and 'think-tanks', particularly those using 'mental reframing' techniques. He has more recently started to help expose state child abuse and 'Child Stealing by the State'. Together with a team of volunteers, Brian produces the UK Column free press newspaper (www.ukcolumn.org), and also runs www.cpexposed.com. He has given talks throughout UK on the subject of "The Subversive attack on UK Society" and continues to work alongside good people from all parties, and no party, to expose the imminent and dangerous Fifth-column threat to UK democracy and personal freedoms.

Does the past still exist? Is it possible to see the future? Are the people who died long ago still with us? He will recount experiences of ghost stories, premonitions, time slips, apparitions and of people who say they have seen the past and had visions of the future which came true. Peter has a delightful way of telling his exclusive stories.
